Checker Input

Show ☑ source   ☑ outline   ☑ image report | Options... |

Check by | file upload ⌄ | | Browse... | No file selected.

Uploaded files with .xhtml or .xht extensions are parsed using the XML parser.

| Check |

Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings.

| Message Filtering |

1. | Error | **The character encoding was not declared. Proceeding using** `windows-1252` **.**

2. | Error | **Changing character encoding** `utf-8` **and reparsing.**

    From line 13, column 1; to line 13, column 67

    `n"><head>↵<meta http-equiv="content-type" content="text/html;`
    `charset=UTF-8">↵        <`

3. | Fatal Error | **Changing encoding at this point would need non-streamable behavior.**

    At line 13, column 67

    `    charset=UTF-8">↵        <meta cha`

Image report

Source

1. `<!-- show a specific question -->↵`
2. `<!-- needs put the title of the question -->↵`
3. `<!-- in the next row it should say how much time has passed since the question was asked (example: 1 min ago, 3 hours ago, 1 day ago, 10 days ago, 1 month ago, 2 years ago, ...) -->↵`
4. `<!-- then it should display the tags by doing Tags: then it should display the list of the tags using the partial view list_of_tag_buttons.blade.php -->↵`

5. `<!-- then it should display the view vote_with_bookmark, passing the appropriate arguments -->`↵
6. `<!-- and to the right of that view it should display the description of the question and below it the name of the user who posted the question and his reputation by using the partial view user_button_with_reputation.blade.php, it then needs to add a separator and list all the comments, one by one with a separator in between and also putting a partial view user_button_with_reputation.blade.php of the user who posted that comment and after the final one there should be a button saying add comment and if the user is a visitor it should redirect him to the log in page, otherwise it should allow him to write a comment and press submit, in each comment if the user is also the owner of that comment he can edit or delete it, if he's the administrator or moderator he can delete even the ones that aren't his -->`↵
7. `<!-- now there should be a text saying answers -->`↵
8. `<!-- if there are no answers it should just have a button write an answer that opens a form that allows the user to write an answer and submit it -->`↵
9. `<!-- if there are answers, they should be ordered decreasing order of upvotes and they should have the partial view vote.blade.php, and to the right of it, it should have the answer and below the answer it should have the partial view user_button_with_reputation.blade.php -->`↵
10. `<!-- below that right part and still to the right of the vote partial page, it should have the comments, just like they are in the answer, if there are no comments it should just say add a comment and allow the user to do so by submitting a form and if there are comments it should display the comments, by displaying the comment content and the name and reputation of the user who commented below it, using the view user_button_with_reputation.blade.php -->`↵
11. `<!DOCTYPE html>`↵
